# Total Rewards by Sonic Boom Wellness

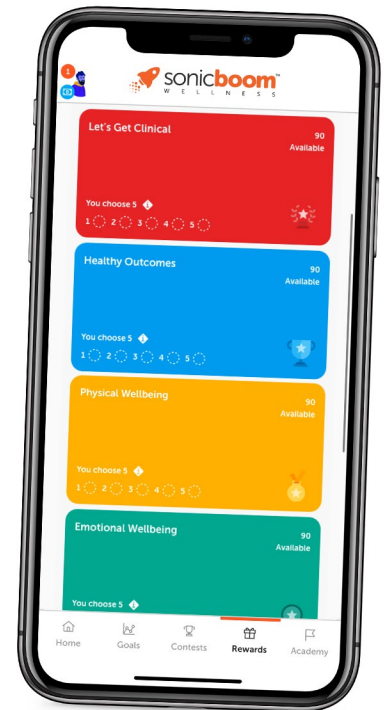

Fully custom incentive management, without all the extra "stuff"

Are you looking for a platform that seamlessly tracks and rewards members for completing activities, automates your existing initiatives, and reduces your administrative burden — but you're not quite looking for a full-blown wellbeing program?

Whether you want to offer simple incentives tied to participation in wellness-related activities, or fully validated outcomes-based incentives, **Total Rewards** by Sonic Boom Wellness can smoothly handle everything from the simplest designs to the most complicated.

## The Total Rewards platform ...

-  Delivers customized incentive-program automation on a global scale
-  Groups activities into distinct categories with varying requirements for completion (customizable)
-  Supports self-reported activities to track participation, as well as outcomes-based rewards with third-party integration (validated file feeds)
-  Uses segmented communications to provide a customized experience for all client populations
-  Provides informative reporting to make it easy and seamless to see participation and progress
-  Includes a Health Quality Assessment with branching logic and approximately 50 questions
-  Offers "Boomin' Bucks" (optional) for automated incentive fulfillment, while remaining flexible and accommodating any currency you wish
-  Allows for device integration and the completion of biometric screenings

Our teams are uniquely equipped to coach you on maintaining ADA and EEOC compliance, deploying best practices, avoiding common pitfalls, and spending the least amount possible to generate the most participation (and more importantly, the health-habit improvement that you seek).
